Problems this order hit, and what we did

Counts didn't match (60 vs 70)
Ravi corrected the challan on 14 Oct. We used the newer number and cancelled the old ₹60,000 approval.

A suspicious email tried to close the case
Ignored and quarantined. Emails can never change money.

Zoho was slow for 2 minutes
We waited and retried. Nothing was created twice.

How this works

Ticked chats are read for orders, challans, voice notes and payment replies.

Unticked chats are dropped the moment they arrive. Not saved, not sent to any AI.

New number mentions a PO? We ask you first: "Unknown number sent a challan for PO-201. Watch this chat?"

Your own messages from this number are ignored, so test from another phone.
